DETAILED ACTION

1. This communication is responsive to the application filed 09/30/2003 and a telephone call made on 09/22/2004 to Mr. Mark Bergner.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

3. The application has been amended as follows:

In the claims:

Please cancel claims 4-5 and 10.

-----**End Examiner's Amendment**-----

Allowable Subject Matter

4. Claims 1-3 and 6-9 are allowed.

Election/Restriction

5. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-3 and 6-9, drawn to the structures/structural elements of a feedback compensator, classified in class 381, subclass 93;
 - II. Claims 4-5 and 10, drawn to the structures/structural elements of a hearing aid, classified in class 381, subclass 312.
6. Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP ' 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the invention I only drawn to a feedback compensator. This subcombination has separate utility such as an acoustic system other than a hearing aid.
7. Because these inventions are distinct for the reasons giving above and have acquired a separate status in the art as shown by their different classifications, restriction for examination purposes as indicated is proper.
8. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II. Restriction for examination purposes as indicated is proper.
9. During a telephone conversation with Mr. Mark Bergner on September 22, 2004, a provisional election was made with traverse to prosecute the invention of Group I, claims 1-3 and 6-9. Group II, claims 4-5 and 10 are withdrawn from further consideration by the examiner,

Art Unit: 2643

37 CFR 1.142(b), as being drawn to a non-elected invention and further canceled by the examiner.
